Asset Protection Strategies

There are a number of wealth preservation strategies provided by Syndical Legal Services that help to preserve your assets and protect the legacy that you have created for your family and charitable causes.

The most common are:

- Family Limited Partnerships and LLCs to hold property, expensive equipment and other assets so it can be insulated from lawsuits and attachments.
- Business Succession Planning to prepare for the next generation of ownership of your closely held business
- IRA Stretch Accounts and Trusts to minimize the tax impact of distributions from before-tax savings accounts
- Irrevocable Life Insurance Trusts to minimize or eliminate estate taxes.
- Charitable Trusts to support the causes that are important to you.
- Domestic & Offshore Trusts
- Tenancy by the Entity
- Homesteads
